 Sangofix® Piggyback	150 cm	100	4117301
 Sangofix® 1 x Caresite® Needle Free Valve	180 cm	100	4052218H

Caresite® Features

- Easy-grip barrel design to minimise slip & touch contamination
- Open fluid path design to minimise areas where bacteria can collect
- MRI compatible
- Swabable, smooth surface permits easy cleaning
- Clear design aids flush conformation
- Effortless Luer guide top access
- Caresite® valve integrated into fluid pathway providing continuous flushing

SANGOFIX® PRIMESTOP

Sangofix® PrimeStop offers cleaner, more efficient priming for IV lines.

A specialised protective cap lined with a hydrophobic membrane stops fluid leaking and protects against contamination during priming.

PrimeStop eliminates the need to expel fluid when priming:

- No more mess
- Reduced contamination and exposure
